Enthusiastic MERN Stack Developer eager to apply academic knowledge and hands-on project experience. Seeking an entry-level opportunity to build scalable web applications and grow as a full-stack developer.

EXPERIENCE

Front-end Developer Intern | Datzon Technologies | certificate

June 2025 – Present

- Contributed to building responsive and performance-optimized interfaces using React.js, Tailwind CSS, and modern JavaScript tools, resulting in 30% faster back-end page load time.
- Collaborated with cross-functional teams including designers and back-end developers to deliver 4+ high-quality, user-centric digital
 products within tight deadlines.
- Improved component reusability and code maintainability by implementing modular component structures and design systems.

Full Stack Developer Intern | Edunet Foundation, in collaboration with EY GDS & AICTE | certificate

Feb 2025 - Mar 2025

- Developed "Vintage Bids," an online auction platform, implementing 10+ front-end features with React and Bootstrap, including real-time bidding and user dashboards.
- Optimized back-end services in Node.js, Express.js and MongoDB, reducing API response time by 40%. Designed and integrated a secure authentication flow, improving user onboarding efficiency.
